Acoustic Wall Tile

filzfelt •

Index Wide covers a lot of territory.

Index Wide creates a bold and sculptural patterning with a decisively random feel. The larger 3'-0" x 1'-0" (91.4 x 30.5 cm) tile size makes for quicker coverage and the height variation between the wool felt strips brings a strong linear and dimensional quality to the design. Made using high quality 100% Wool Design Felt, natural cork composite backing, and low VOC adhesives, each order includes equal numbers of four pattern elements that are arranged according to one standard configuration. Index Wide tiles can be specified with up to four colors per wall and install easily with heavy-duty wallcovering adhesive.

Index Wide was designed by Submaterial, a design studio and manufacturer based in Albuquerque, New Mexico.

“With many of the surfaces and textures I explore, I believe I am striving to create a balance between simple geometries and complex natural systems. I have always been fascinated by the appearance of randomness, especially when it turns out to be driven by a complex and quite orderly set of rules.”

– David Hamlin with Submaterial, designer of Index Wide

Tiles may be trimmed to size with a utility knife. Tiles may be trimmed to size with a utility knife. Refer to Index Wide Installation Instructions for complete guidance.
Maintenance	Vacuum occasionally to remove general air-borne debris. Should soiling occur, spot clean with mild soap and lukewarm water. Avoid aggressive rubbing as this can continue the felting process and change the surface appearance of the felt. Refer to Product Maintenance + Cleaning for detailed care instructions.
Variation	Wool felt is a natural material and color variation and inclusions of natural fiber on the surface are evidence of the 100% natural origin of the material. Since Imprint is constructed with felt strips turned on edge, color variation will be more extreme and is part of the design intent of the product. Shade variation will be very noticeable on the installed product and cannot be more uniform.
Environmental	100% Wool Design Felt is 100% biodegradable/compostable and Cork Composite Backing is 93% pre-consumer recycled content Contains no formaldehyde, low VOC, no chemical irritants, and free of harmful substances Cork composite backing is GREENGUARD-certified Contributes to LEED® Download Declare Label Living Building Challenge Criteria Compliant Oeko-Tex® Standard 100 Certified Product Class II (100% Wool Design Felt) Forest Stewardship Council® Certified (Cork Composite Backing) Meets VOC test limits for the CDPH v1.2 method
