

Chevron Block

Acoustic Wall Tile

filzfelt •

Chevron Block gets right to the point.

Chevron Block is a riff on the zig-zag which can be played up to dramatic or mellowed to subtle sophistication. The lines are segmented with two tile shapes that allow lots of variety in patterning and these thin tiles provide sound absorption well beyond their size.

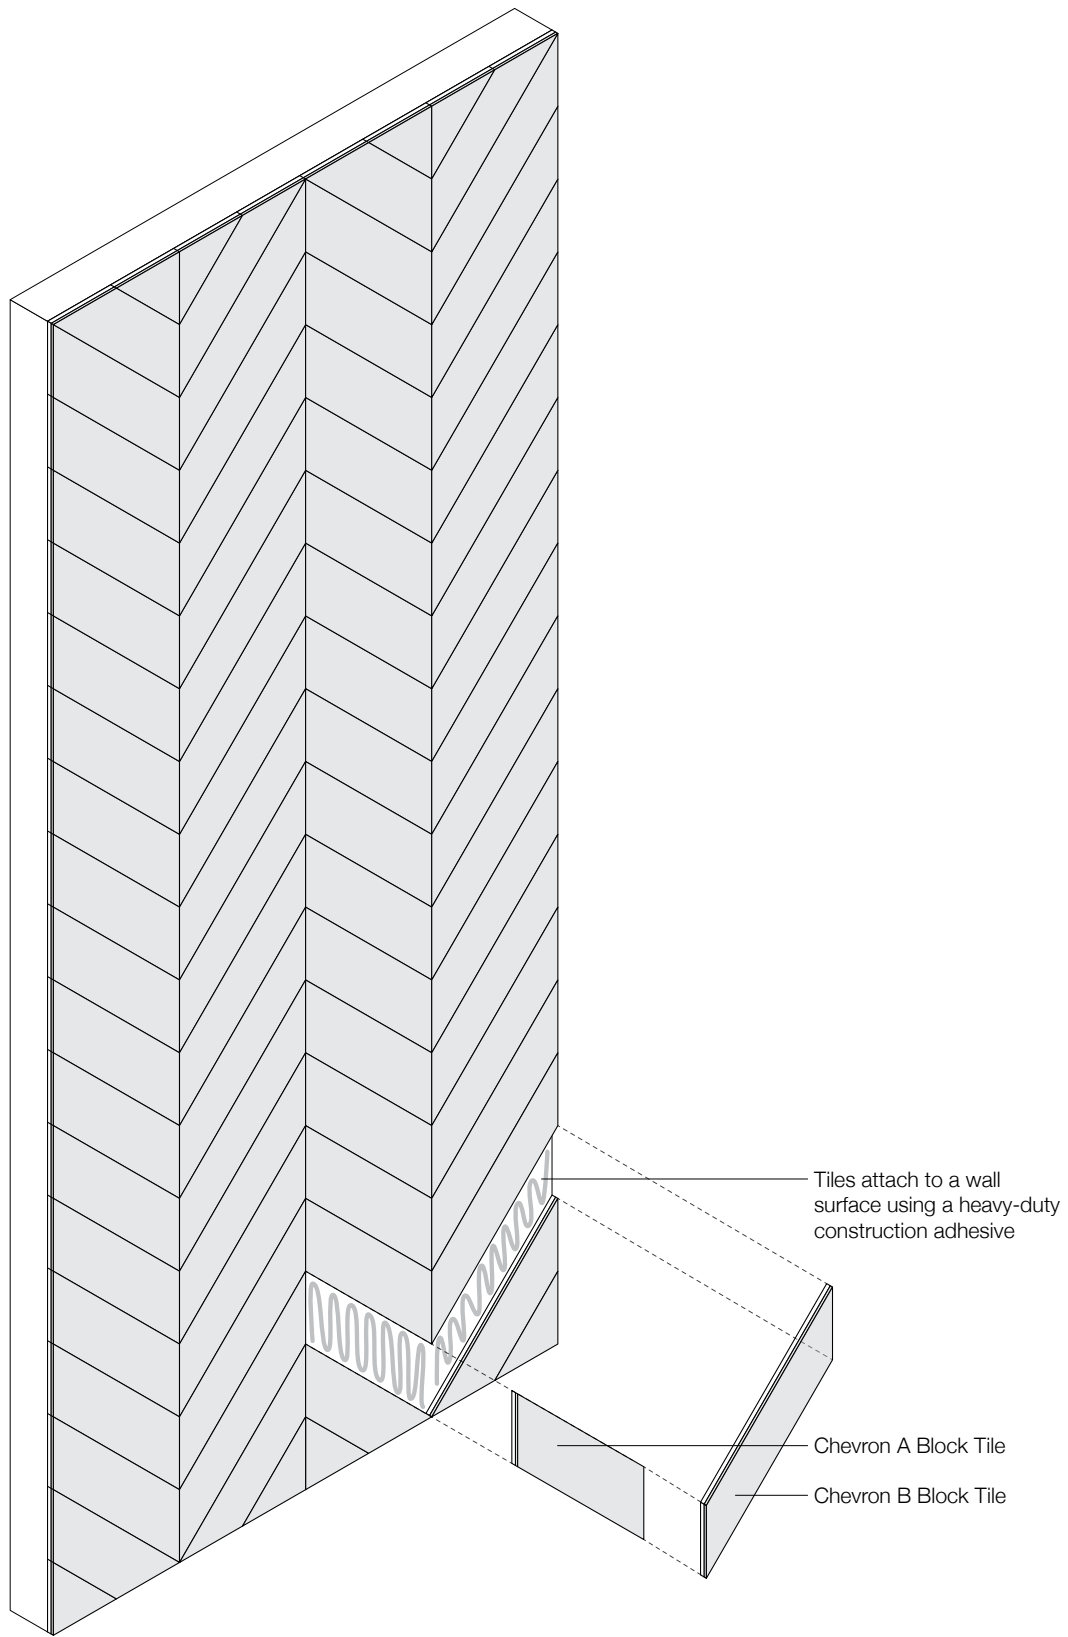

Chevron Block was designed by Kelly Harris Smith, a textile and product designer who specializes in natural, sustainable, and recycled materials.

"I find inspiration almost everywhere I go. Whether it's the color of the sky at a particular moment, the texture of a manhole cover or the patterning on a facade, I'm constantly recording. Depending on the type of project, I photograph, sketch, collage and even stitch my ideas before moving to conceptual drawings."

– Kelly Harris Smith, designer of Chevron Block

Avoid aggressive rubbing as this can continue the felting process and change the surface appearance of the felt. Refer to 100% Wool Design Felt Maintenance + Cleaning for detailed care instructions.
Variation	Wool felt is a natural material and color variation and inclusions of natural fiber on the surface are evidence of the 100% natural origin of the material. Product color is only indicative, as it is not possible to assure consistency of color in a natural product due to the natural color of raw wool and absorption of dyes. Color matching cannot be guaranteed on shipments and variation will be more pronounced beyond the normal commercial range.
