Acoustic Wall System

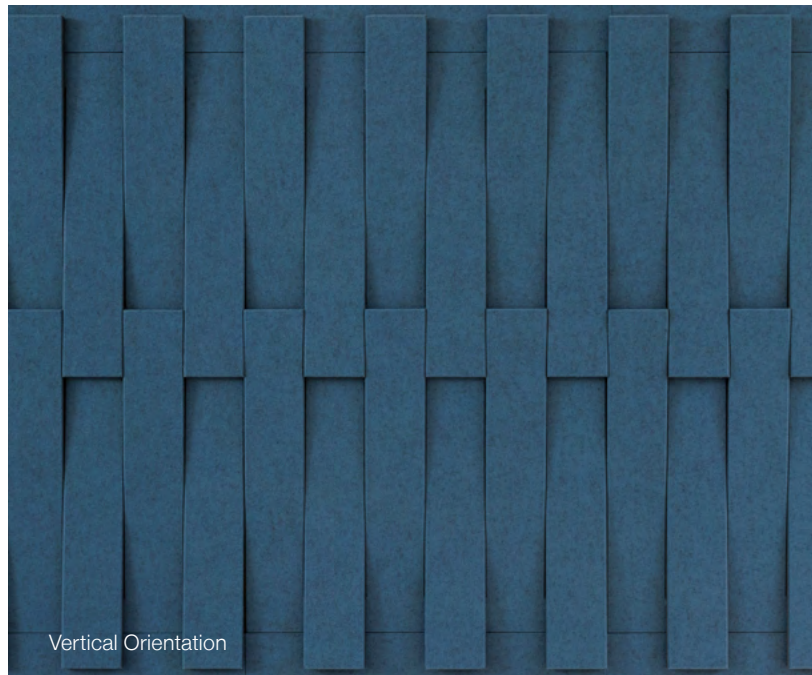

filzfelt •

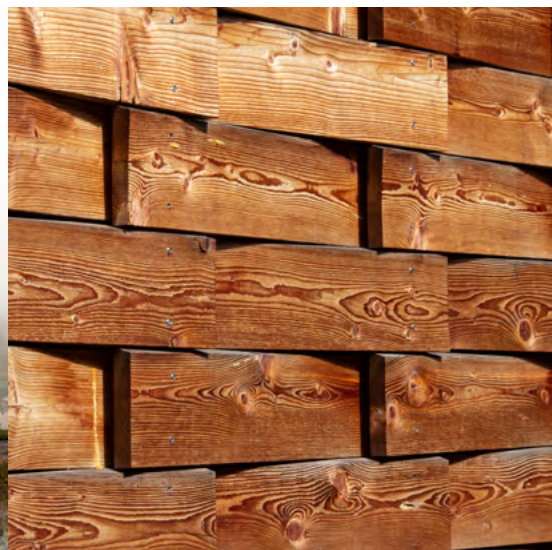

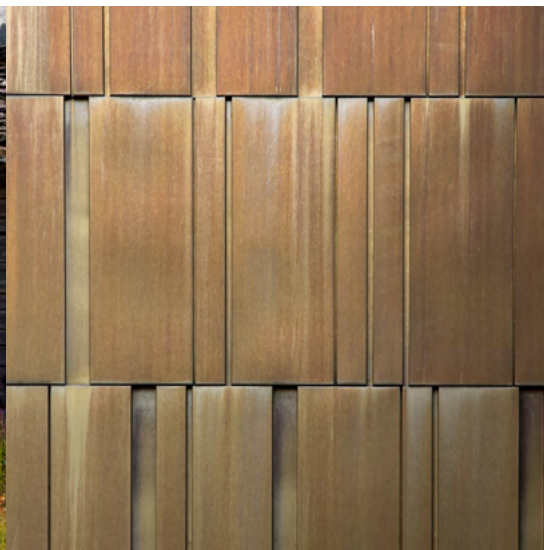

Crossover leaves  
other acoustic wall  
systems flat.

Crossover elevates the traditional acoustic wallcovering with three-dimensional patterning. This collection inspired by building facades on a road trip through the Swiss Alps features over ninety colors of wool felt on two colors of acoustic substrate. The system ships complete with standard Z-Clips for easy hanging in no time flat.

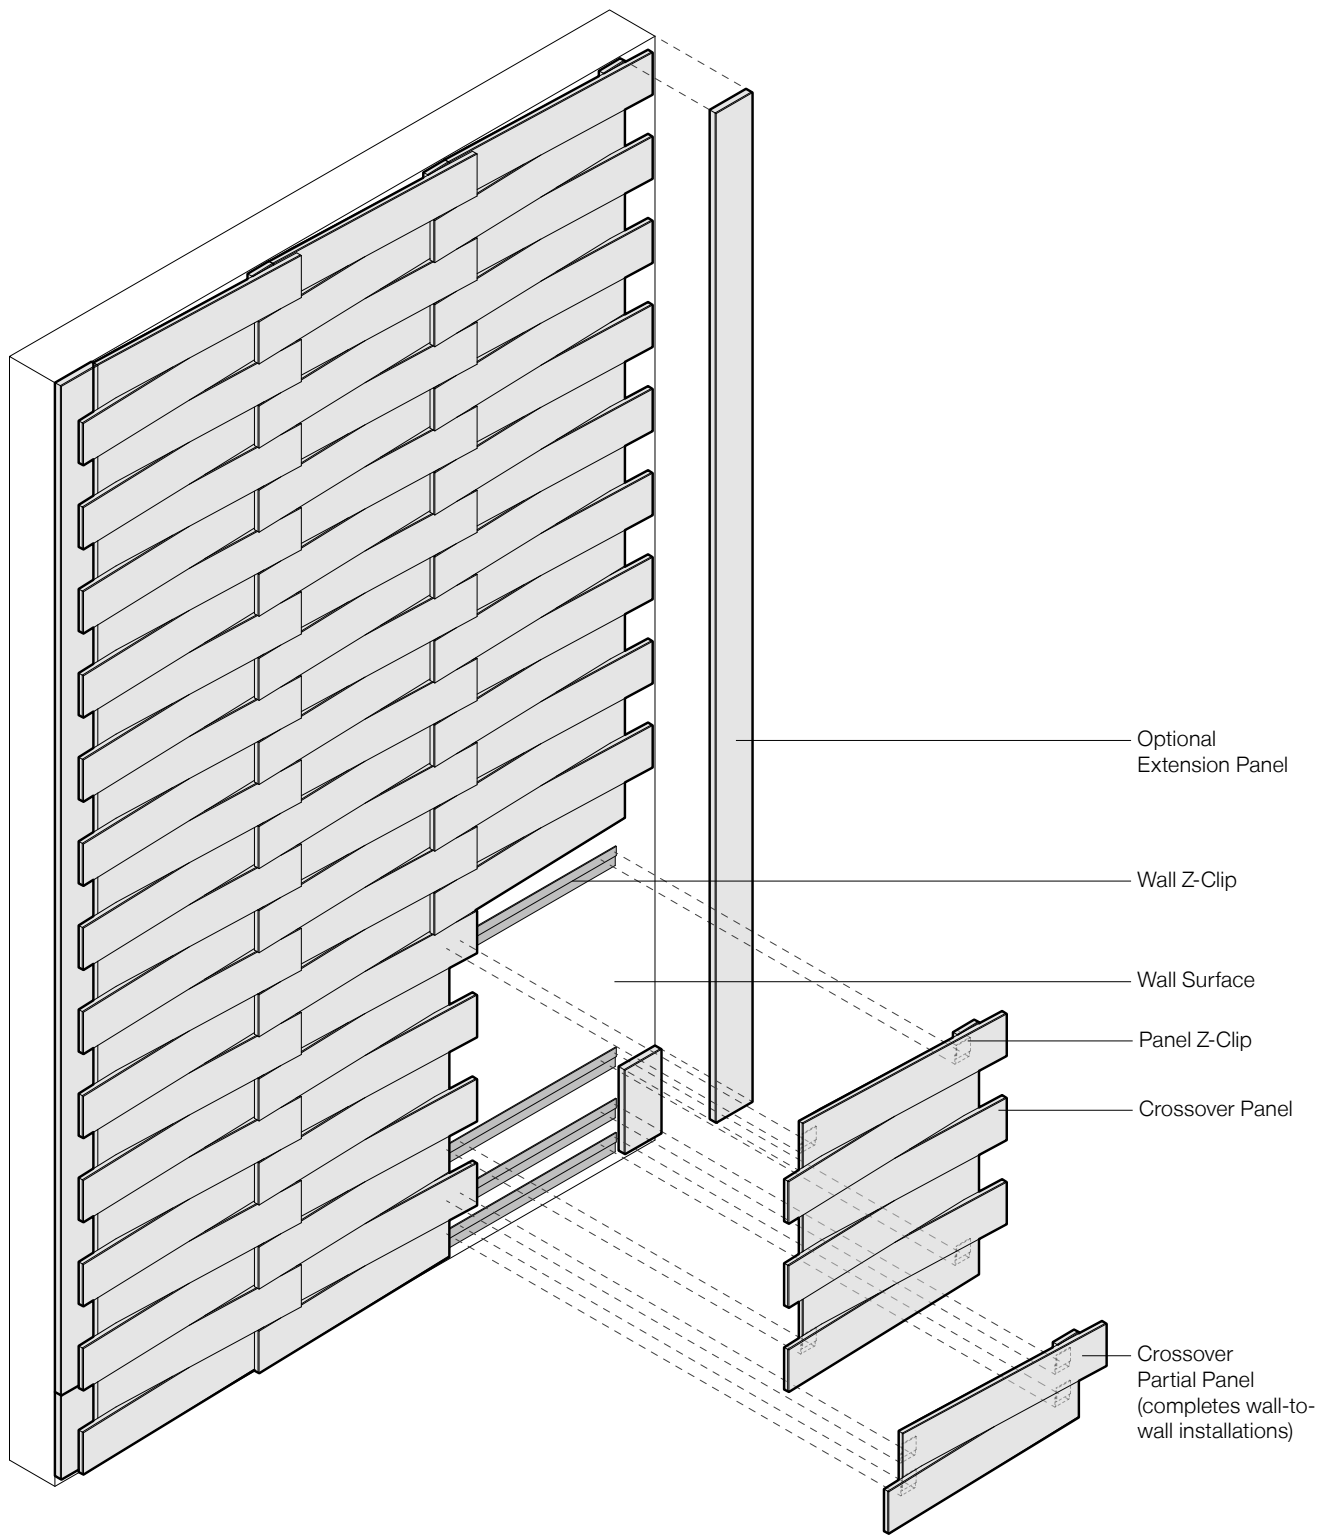

Crossover was designed by Bernd Benninghoff, a furniture designer and interior architect based in Mainz, Germany.

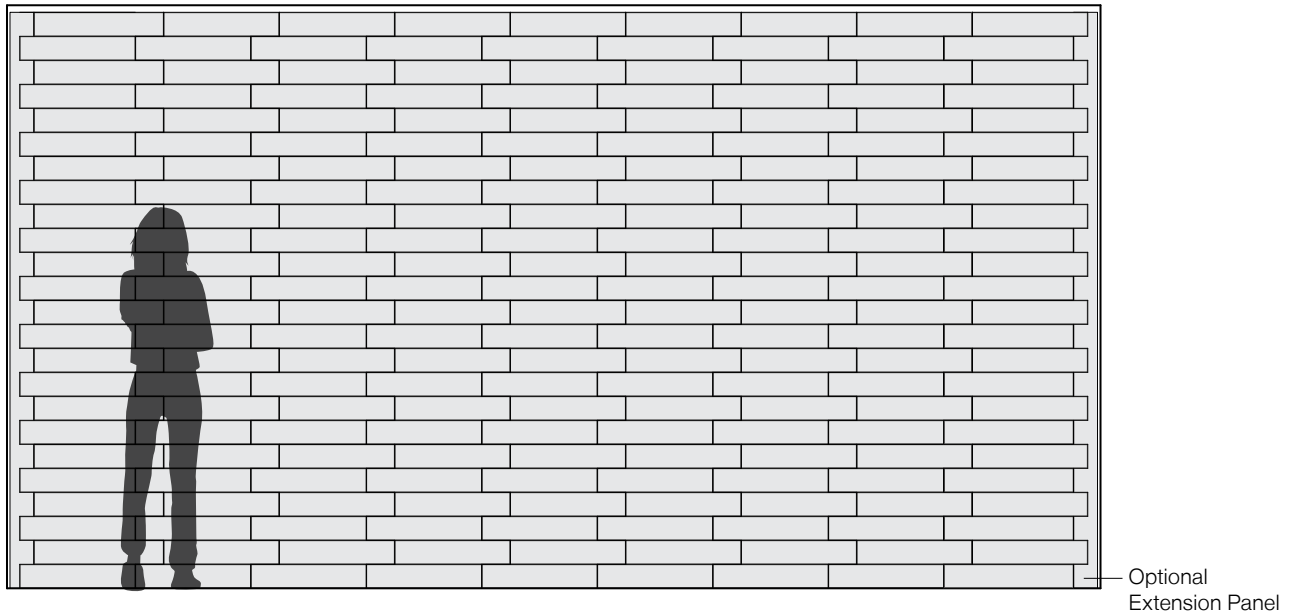

"I often cross paths with buildings that are intricately designed on the outside, only to be rather mundane and monochromatic on the inside. With Facade, Gap, and Crossover, I was interested in transferring textures, lines, and three-dimensional depth from the outside of these buildings, to the inside."

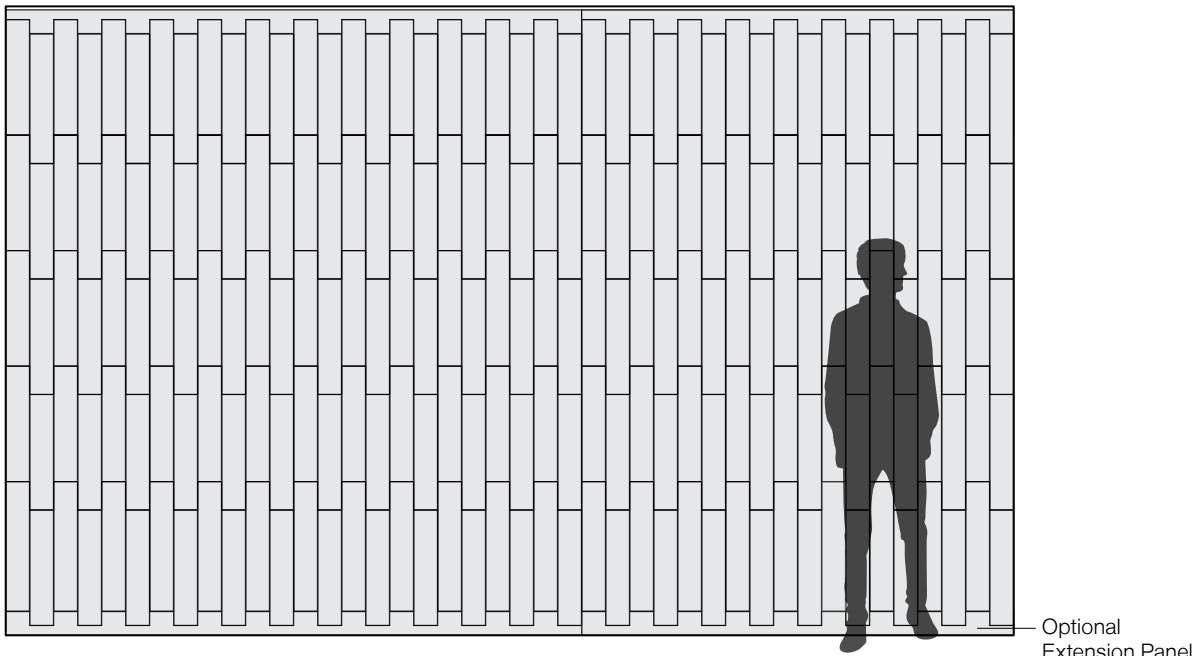

– Bernd Benninghoff, designer of Crossover

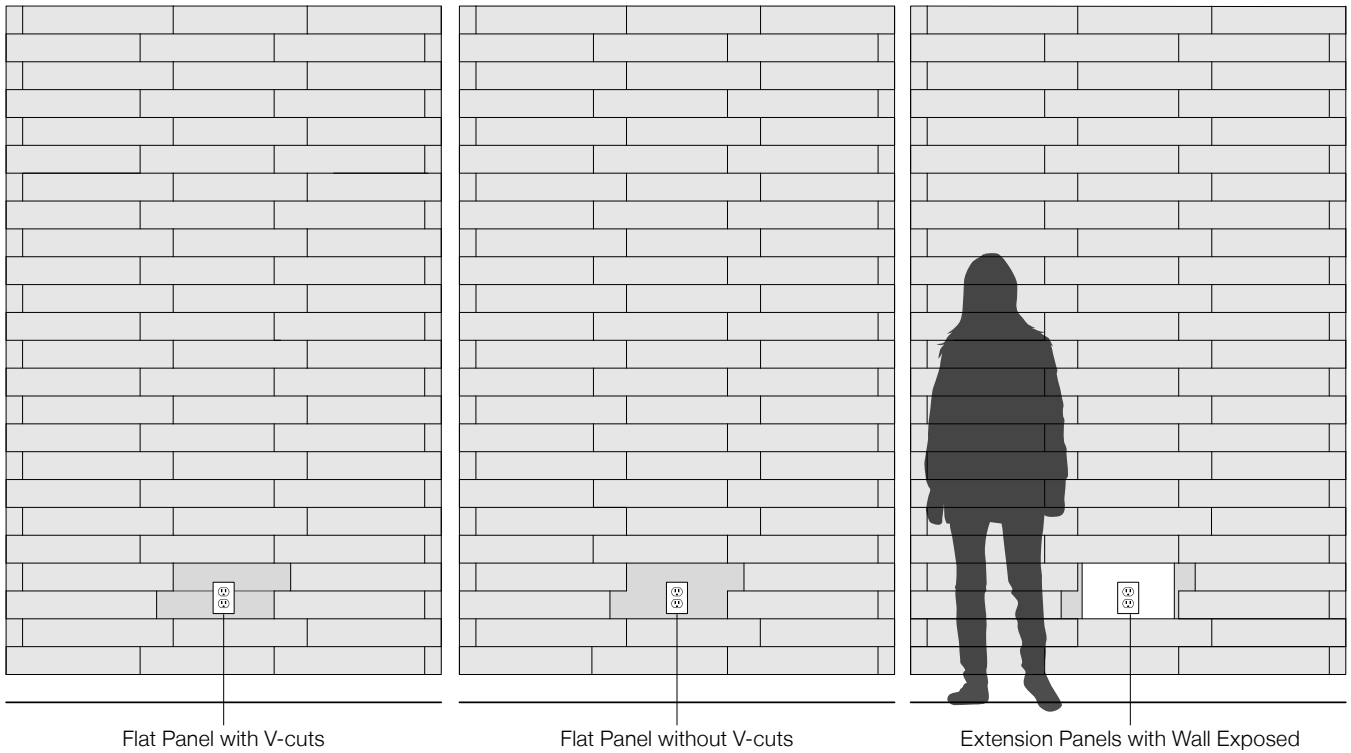

**Exploded Axonometric**  
 One Distinct Panel in Standard Pattern

**Horizontal Pattern** with Optional Extension Panels

**Vertical Pattern** with Optional Extension Panels

**Device Cut-out Options**

Standard Crossover panels cannot be cut or field-trimmed due to the three-dimensional design. To accommodate electrical device cut-outs, one of the panel options above must be specified and any cut-outs for devices made by the installer in the field.

<b>Installation</b>	Install with Z-Clips provided (wall screws not included)
<b>Maintenance</b>	Vacuum occasionally to remove general air-borne debris. Should soiling occur, spot clean with mild soap and lukewarm water. Avoid aggressive rubbing as this can continue the felting process and change the surface appearance of the felt. Refer to Product Maintenance and Cleaning Guide for detailed care instructions.
<b>Variation</b>	Wool felt is a natural material and color variation and inclusions of natural fiber on the surface are evidence of the 100% natural origin of the material. Product color is only indicative, as it is not possible to assure consistency of color in a natural product due to the natural color of raw wool and absorption of dyes. Color matching cannot be guaranteed between individual tiles and expect color variation beyond the normal commercial range.
