# Fish Block

Acoustic Wall Tile

filzfelt •

Fish Block schools all other wallcoverings.

Eva Zeisel didn't shy away from playfulness and, luckily, neither do we. Aligned with its fellows, a school of fish glides across the wall or these acoustic tiles can be rotated to create a subtle scale effect. Available in over ninety colors of 100% Wool Design Felt mounted to a high-performing acoustic substrate, the modular tiles install easily with heavy-duty construction adhesive while providing sound absorption and natural texture.
Fish Block was designed by Eva Zeisel, a modernist ceramicist, designer, and "a maker of useful things."

"To describe our profession as designers, we are actually concerned with the playful search for beauty. The word 'playful' is a necessary aspect of our work because one of our problems is that we have to make and produce lovely things all throughout life. Playful is therefore an important part of our quality as designers."
– Eva Zeisel, designer of Fish Block

Installation	Install in the pattern as specified and attach to a wall surface using a heavy-duty construction adhesive. Tiles may be trimmed to size with a utility knife. Refer to Fish Block Installation Instructions for complete guidance.
Maintenance	Vacuum occasionally to remove general air-borne debris. Should soiling occur, spot clean with mild soap and lukewarm water. Avoid aggressive rubbing as this can continue the felting process and change the surface appearance of the felt. Refer to 100% Wool Design Felt Maintenance + Cleaning for detailed care instructions.
Variation	Wool felt is a natural material and color variation and inclusions of natural fiber on the surface are evidence of the 100% natural origin of the material. Product color is only indicative, as it is not possible to assure consistency of color in a natural product due to the natural color of raw wool and absorption of dyes. Color matching cannot be guaranteed on shipments and variation will be more pronounced beyond the normal commercial range.
Environmental	100% Wool Design Felt is 100% biodegradable/compostable and Akustika 10 contains minimum 60% post-consumer recycled content and is 100% recyclable Contains no formaldehyde, 100% VOC free, no chemical irritants, and free of harmful substances 100% Wool Design Felt and Akustika 10 contribute to LEED© Download Declare Label Living Building Challenge Criteria Compliant Oeko-Tex© Standard 100 Certified Product Class II (100% Wool Design Felt + Akustika 10 Substrate) Meets VOC test limits for the CDPH v1.2 method
