Acoustic Wall Tile

A woman with short dark hair and glasses is sitting in a light-colored armchair, reading a book. She is wearing a dark blue or black cowl-neck top. The background is a wall covered in ARO Block 1 acoustic wall tiles. These tiles are triangular and arranged in a repeating pattern of larger triangles. The colors of the tiles are dark grey, light beige, and black. Each tile has a small, white, hexagonal protrusion in its center. The woman is holding a book with a black cover that has white text and graphics. The text 'semper' is visible on the book cover. The overall scene is a product shot for the ARO Block 1 acoustic wall tile.

## ARO Block 1 covers every angle.

A playful take on the triangle, ARO Block 1 lets the negative space between tiles share the spotlight and may go wall-to-wall or provide a floating element of color and pattern. Available in over ninety colors of 100% Wool Design Felt, the modular tiles install easily with heavy-duty construction adhesive while providing sound absorption and natural texture.

ARO Block 1 was designed by Architecture Research Office (ARO), a firm dedicated to architecture that unites beauty and form with strategy and intelligence.

"We strive to convey a sense of calm, warmth, and joy in our product designs as well as through the architecture we design. We take inspiration from both material expression and functionality. We work to elevate spaces through careful attention to detail and use, and to emphasize the responsible use of materials and seek to balance beauty and strategy through design, pattern and texture."

<b>Installation</b>	Install in the pattern as specified and attach to a wall surface using a heavy-duty construction adhesive. Tiles may be trimmed to size with a utility knife. Refer to 100% Wool Design Felt Installation Instructions for complete guidance.
<b>Maintenance</b>	Vacuum occasionally to remove general air-borne debris. Should soiling occur, spot clean with mild soap and lukewarm water. Avoid aggressive rubbing as this can continue the felting process and change the surface appearance of the felt. Refer to 100% Wool Design Felt Maintenance + Cleaning for detailed care instructions.
<b>Variation</b>	Wool felt is a natural material and color variation and inclusions of natural fiber on the surface are evidence of the 100% natural origin of the material. Product color is only indicative, as it is not possible to assure consistency of color in a natural product due to the natural color of raw wool and absorption of dyes. Color matching cannot be guaranteed on shipments and variation will be more pronounced beyond the normal commercial range.
