

ARO Grid 2

Acoustic Ceiling System

ARO Grid 2 thinks
budget-friendly
acoustic products don't
have to be boring.

The patterning of ARO Grid 2 incorporates subtle angles to create a dynamic geometric landscape overhead. Plus, a simple and straightforward installation means no hardware or tools are needed. Mix different colors to define areas, establish wayfinding, or simply to keep things interesting.

ARO Grid was designed by Architecture Research Office (ARO), a New York based firm dedicated to architecture that unites beauty and form with strategy and intelligence.

"We strive to convey a sense of calm, warmth, and joy in our product designs as well as through the architecture we design. We take inspiration from both material expression and functionality. We work to elevate spaces through careful attention to detail and use, and to emphasize the responsible use of materials and seek to balance beauty and strategy through design, pattern and texture."

– Architecture Research Office, designers of ARO Grid 2
