Rise
## Acoustic Wall Panel

filzfelt

Rise brings sound absorption the next level.

A design for the minimalist, Rise features an ever-so-subtle pattern of repeating curves that make a soft but still eye-catching statement in pure wool felt. But don't be fooled by Rise's seeming simplicity. These panels combine sound-softening, minimal seaming, and easy installation in an acoustic system that is way more than meets the eye. Combine colors from over ninety standard colorways to make these subtle arcs pop or keep it simple and straightforward in a single color.
Rise was designed by Submaterial, a design studio and manufacturer based in Albuquerque, New Mexico.

"With many of the surfaces and textures I explore, I believe I am striving to create a balance between simple geometries and complex natural systems. I have always been fascinated by the appearance of randomness, especially when it turns out to be driven by a complex and quite orderly set of rules."
– David Hamlin with Submaterial, designer of Rise

Product color is only indicative, as it is not possible to assure consistency of color in a natural product due to the natural color of raw wool and absorption of dyes. Color matching cannot be guaranteed on shipments and variation will be more pronounced beyond the normal commercial range.
