

ARO Plank 6

Dimensional Wallcovering

spinneybeck | filzfelt •

About

ARO Plank 6 provides a rhythm of half-round planks with an unexpected stitched pinch that keeps things interesting. Available in six standard patterns, this flexible system provides maximum sound soaking with felt covering and installs quickly and easily with the Interlock Mounting System. Choose from twenty-nine Spinneybeck leather qualities and over ninety FilzFelt felt colors. Feeling a bit daring? Mix up leather and felt for a wall of color and all-natural texture.

Max. Module Length	9'-0" (2.74 m)
Leather Seams	Due to hide sizes, seams with a blind stitch are required—Seams are machine stitched at random intervals in matching thread color unless otherwise specified
Pinch Stitch	Pinched details are machine stitched at predetermined intervals in matching thread color unless otherwise specified
Durability	Contract
Maintenance	Leather: For finished leathers, wipe with a cool, damp cloth. For tougher soiling, use a pH-balanced soap and rinse. Repeat, if needed. For naked (aniline) leathers, wipe entire surface with a soft cloth and cool water to even out any abrasions or stains. Do not spot rub, for it will darken only that area. Felt: Vacuum occasionally to remove general air-borne debris. Should soiling occur, spot clean with mild soap and lukewarm water. Avoid aggressive rubbing as this can continue the felting process and change the surface appearance of the felt.
Lead Time	Made to order and certain lead times will apply
Environmental	100% Wool Design Felt is 100% biodegradable and Akustika 10 Substrate is 100% recyclable 100% Wool Design Felt contains no formaldehyde, 100% VOC free, no chemical irritants, and free of harmful substances 100% Wool Design Felt contributes to LEED®
Installation	Installs with Interlock Mounting System provided (wall fasteners not included)
Variation	Leather: Spinneybeck leather is a natural material and slight variations in color and thickness may be evident between dye lots or production runs. The fiber structure will vary within a hide and from hide to hide which can impact how the aniline dyes are absorbed. Full aniline leathers will have a higher variation between dye lots and therefore we cannot guarantee exact color matching. A Cutting for Approval (CFA) is always recommended for full aniline leathers. Although there can be some variation from dye lot to dye lot, semi-aniline leathers are more consistent in color and uniformity. Felt: Wool felt is a natural material and color variation and inclusions of natural fiber on the surface are evidence of the 100% natural origin of the material. Product color is only indicative, as it is not possible to assure consistency of color in a natural product due to the natural color of raw wool and absorption of dyes. Color matching cannot be guaranteed on shipments and variation will be more pronounced beyond the normal commercial range.
Custom	Custom patterns may be specified
Acoustics	Felt: ASTM C 423: NRC – 1.0, SAA – 1.0
Colorfastness to Light	Leather: Varies—Refer to spinneybeck.com for complete specifications Felt: Class 4–5 (40 hours)
Colorfastness to Crocking	Leather: Varies—Refer to spinneybeck.com for complete specifications Felt: Class 3–4 (wet), Class 4–5 (dry)
