# Aquent

<b>Specifier</b>	Huntsman Architectural Group
<b>Location</b>	New York NY
<b>Product</b>	Grid Hanging Panels
<b>Felt Color</b>	732 Farn
<b>Photographer</b>	Garrett Rowland

In the New York offices of Aquent, a staffing agency which specializes in placing temporary employees in marketing and creative industries, the design pays homage to New York's distinct neighborhoods. The grey flooring evokes ubiquitous urban asphalt and a graphic wall of iconic brownstones sits opposite a swath of green that symbolizes the Highline. Hanging Panels in the Grid pattern mimic the lushness of the elevated park and provide visual and acoustic separation at the area of focused work.
