# Autodesk

<b>Specifier</b>	Huntsman Architectural Group
<b>Location</b>	San Rafael CA
<b>Product</b>	3mm Wool Design Felt
<b>Felt Colors</b>	105 Rost, 116 Orange, 136 Weinrot, 150 Weiß, 175 Graphit, 274 Senf, 732 Farn
<b>Photographer</b>	Jasper Sanidad

At the San Rafael offices of Autodesk, the architecture, engineering, and manufacturing software company, whiteboard wall surfaces for brainstorming and group problem solving co-mingle with 100% Wool Design Felt wallcovering to provide saturated color and textural contrast. 3mm Wool Design Felt creates wall-to-wall blocks of color in private workrooms and elsewhere a recessed niche becomes a graphic feature with 12 x 12 in (30.5 x 30.5 cm) squares of multi-colored felt.
