Brierley+Partners runs loyalty programs for some of the world's largest companies. For their headquarters in Frisco, Texas, Perkins&Will was tasked with creating a fun, feel-good space for employees that run the gamut from creative software engineers to number crunchers. Plus Block is no shrinking violet in a dynamic installation of five pure wool felt colors in the main reception area. These modular tiles are a triple threat with all-natural texture, graphic patterning, and sound absorption.
