## Edgar Development

<b>Specifier</b>	Dialog Design
<b>Location</b>	Vancouver BC
<b>Products</b>	3mm Wool Design Felt
<b>Felt Colors</b>	170 Asche + 300 Anthrazit
<b>Photographer</b>	Ema Peter

Creating a space that conveys a dynamic, innovative workplace plus the mountainous landscape of western Canada is no easy feat. The creative team at Dialog Design covered feature walls in expansive photography of snow-capped mountain scenes while faceted wool felt-covered acoustic panels meander across the space. The acoustic panels extend up walls and over ceilings to provide massive sound absorption in two natural grey hues that conjure up visions of icy elevations.
