<b>Photographer</b>	Ryan Gobuty for Gensler

At a confidential financial information and analytics corporation, 100% Wool Design Felt is installed throughout the space to provide textural custom wallcovering plus screening and acoustic treatments. In a Break Room, angular sections of four felt colors including a bright blue (686 Enzian) and orange (116 Orange) come together to create a feature wall that's hard to miss. Elsewhere, the same greys are paired with a vibrant yellow (124 Gelb) to create another one-of-a-kind wallcovering. Staying with the saturated color palette, ARO Array 3 Hanging Panels in a rich blue-green (312 Lagune) hang on two-channel Hanging Panel Track System to provide privacy plus soften sound in the glassy conference room.
