filzfelt

Financial Services Corporation

Specifier	Gensler
Location	Boston MA
Product	CNC cut Wool Design Felt
Felt Color	116 Orange + 170 Asche
Photographer	Garrett Roland

At the corporate headquarters of a financial services corporation in Boston, Massachusetts, the street level amenities include a café and coffee bar, guest reception, and the GoWork Center. The GoWork Center is a workspace designed to support employee mobility by providing remote employees with space to settle in for the day. At the Boston location, worktables and upholstered seating are provided along with semi-private touchdown rooms complete with CNC cut Design Felt wallcovering with large-scale graphic numerals. The 3mm felt provides a unique numeric identity for each space with saturated color while softening the acoustics of the office buzz.
