<b>Felt Color</b>	686 Enzian
<b>Photographer</b>	Chuck Choi

At the new Gladys E. Kelly Public Library in Webster, Massachusetts, Oudens Ello Architecture designed a modern library where light floods the building from its plentiful windows. To add color and complementary patterning as well as to have some flexible sun shading and privacy, Grid Hanging Panels in a vibrant blue slide on FilzFelt's Hanging Panel Track System. The multi-channel track allows the panels to stack out of the way to one side or slide into place just where needed.
