Don't love going to the dentist? How about soothing colors and a modern, fun interior to help you grin and bear it? 3mm Design Felt in 713 Kiwi covers a feature wall in the waiting area along with an oval custom floor covering in the same tranquil hue. At the reception desk, 3mm Design Felt in 200 Natur covers the side of the reception desk and a custom light pendant made by hand stitching and stretching 3mm felt across Europly ribs lends some softness in the otherwise hard-surfaced space.
