**Specifier** Imbue Design  
**Location** San Francisco CA  
**Products** 3mm Wool Design Felt + Custom Floor Covering  
**Felt Color** 200 Natur  
**Photographer** Imbue Design

In this jewel box of an apartment, dramatic lines and dark colors highlight the panoramic views of San Francisco. But while the view draws the eye out, 100% wool felt helps to bring the focus back to the oh-so-cozy living spaces. A Custom Floor Covering defines the open dining room with machine stitching in gold thread, a subtle nod to the upholstery and light fixture. 3mm Wool Design Felt in the same grey hue adds softness and provides sound dampening in the bedroom. The felt-wrapped paneling features an unexpected chamfered edge detail to break up the expansive wall. And in the adjacent closet, even the clothing gets a dramatic backdrop with additional felt wallcovering.
