

Nob Hill Residence

Project Profile

Nob Hill Residence

Specifier Imbue Design
Location San Francisco CA
Products 3mm Wool Design Felt + Custom Floor Covering
Felt Color 200 Natur
Photographer Imbue Design

In this jewel box of an apartment, dramatic lines and dark colors highlight the panoramic views of San Francisco. But while the view draws the eye out, 100% wool felt helps to bring the focus back to the oh-so-cozy living spaces. A Custom Floor Covering defines the open dining room with machine stitching in gold thread, a subtle nod to the upholstery and light fixture. 3mm Wool Design Felt in the same grey hue adds softness and provides sound dampening in the bedroom. The felt-wrapped paneling features an unexpected chamfered edge detail to break up the expansive wall. And in the adjacent closet, even the clothing gets a dramatic backdrop with additional felt wallcovering.
