

## Orion Jet Center

<b>Specifier</b>	Moniomi Design
<b>Location</b>	Opa-Locka FL
<b>Product</b>	CNC cut Wool Design Felt
<b>Felt Color</b>	160 Beige
<b>Photographer</b>	Robert Rios

At the Orion Jet Center, located at Miami's Opa-Locka Executive Airport, CNC cut 3mm and 5mm Wool Design Felt creates a stunning conference room installation. The felt strips alternate thicknesses to create a naturally textural, three-dimensional wallcovering in an undyed colorway of 100% wool felt. The subtle shadow and texture creates a sophisticated wallcovering solution with the added bonus of acoustic absorption.
