Location	Washington DC
Product	ARO Grid 3
Color	05 Ice
Photographer	Garrett Rowland

At a global development and construction firm in Washington, DC, ARO Grid 3 enhances a multi-use lounge. This anything-but-ordinary acoustic ceiling system sits in a standard ACT ceiling grid, making it a snap to install. The openings between tiles allow lighting and HVAC through, while the graceful curves add a little drama and a lot of sound softening overhead.
