Project Profile

filzfelt®

## TLCD Architecture

<b>Specifier</b>	TLCD Architecture
<b>Location</b>	Santa Rosa CA
<b>Product</b>	Matrix Hanging Panels
<b>Felt Color</b>	308 Petrol
<b>Photographer</b>	David Wakely

At the offices of TLCD Architecture, the client and the designer are one in the same. Matrix Hanging Panels in a distinctive blue hue introduce a screening and sound absorbing element at the end of the open workstations at their new offices located in the Sonoma Valley of California. These playful panels create a modest amount of privacy and all-natural texture in thick 100% Wool Design Felt.
