The Craftsman by Two Brothers

Specifier	Elements Architectural Group
Location	Naperville IL
Product	Index Dimensional
Felt Color	160 Beige

In a modern tavern by the Two Brothers Brewing Company, Elements Architectural Group crafts a rustic but contemporary space to compliment the farm-to-table fare. A minimal palette of reclaimed Douglas fir, blackened steel, exposed brick, and (of course, our favorite) undyed wool felt wallcovering evokes an earnestness and natural warmth in the LEED® Gold space. Index Dimensional wallcovering features varied thicknesses of wool felt to create a juxtaposition of soft, natural texture and crisp linearity.
