At WeWork, it's all about the entrepreneur. WeWork has made its mission to provide cool, flexible boutique office space in Seattle, San Francisco, Los Angeles, Washington DC, Chicago, Boston, and New York City. For WeWork Fulton Center, located in the Financial District of Manhattan, the space is as eclectic in its finishes as in its use, offering a variety of workspaces including private offices, soft lounge, and informal meeting areas, and private phone/work rooms. 3mm Wool Design Felt is used throughout in shades of green and grey to provide a textural, colorful wall covering. And at the phone rooms, 3mm Design Felt in 732 Farn adds softness and sound absorption. Elsewhere Polka 120 Floor Mats in 170 Asche and 175 Graphit, create a little coziness in an informal lounge area.

(Please note that Polka 120 Floor Mat is a less actively marketed product; however; may be ordered with certain minimums.)
